ONE RANGE,
MANY OPTIONS

SUSTAINABLE LIGHTING FOR MODERN
INDUSTRIAL ENVIRONMENTS

Efficiency meets longevity: the DAMP PROOF HIGH EFFICIENCY range featuring classic shapes offers reliable and energy-efficient lighting for industrial and technical areas – and is particularly suited for industrial facilities with low to mid-height ceilings and environments without high humidity exposure.

With a luminous efficacy of up to 164 lm/W, a lifetime of 100 000 hours (L80) and IP65/IK08 protection, the luminaires are ideal for long-term use in demanding conditions. Their tool-free installation and choice of versions make them fit for a wide range of applications, including car parks, workshops, underpasses, storage areas and assembly lines.

Both light source and driver are easy to upgrade thanks to EVERLOOP. Combined with the MULTI LUMEN function, this range can be adapted to a variety of projects while reducing the need for maintenance and complete lighting system replacements.

EVERLOOP
SMART. SIMPLE. SUSTAINABLE.

With EVERLOOP, the DAMP PROOF HIGH EFFICIENCY luminaire offers a sustainable alternative to full replacements. Thanks to its modular design, both driver and light source can be easily upgraded – without the need to replace the entire luminaire. This makes maintenance simpler, more cost-effective, and environmentally friendlier.

For details, see the user instructions
and our how-to video

1 Upgradeable driver

2 Easy light source replacement

SUSTAINABLE LIGHTING: replaceable driver and light source via EVERLOOP

MULTI LUMEN FUNCTION: power step selectable on site

HIGH LIFETIME: up to 100 000 h (L80) to minimise maintenance

HIGH EFFICIENCY: up to 164 lm/W for reduced energy consumption

FLEXIBLE OPTIONS: On/off, DALI and through-wiring versions

QUICK INSTALLATION: thanks to tool-free electrical connection

Does your project require something not shown? LEDVANCE Project Services can create lighting solutions to fit your specific needs. Get in touch: contact@ledvance.com

ADJUST AND GO POWERED BY MULTI LUMEN

Thanks to the MULTI LUMEN feature, you can adjust the luminous flux in several steps to match on-site requirements – for optimal lighting across a wide range of applications. This flexibility simplifies project planning and supports your daily business.

Please refer to the user instructions for detailed settings. Learn more at ledvance.com/multiselect

DIP switch for easy power steps setting.

DAMP PROOF HIGH EFFICIENCY	Max.	Lumen	Min.
1 200 29 W On/Off & Throughwiring	4 640	5 settings	2 260
1 500 40 W On/Off & Throughwiring	6 400	7 settings	2 590
1 500 73 W On/Off & Throughwiring	11 680	4 settings	7 780

ABOUT LEDVANCE

With business activities in over 140 countries, LEDVANCE is one of the world's leading general lighting companies. Emerging from OSRAM's general lighting division, LEDVANCE's portfolio includes LED lamps and luminaires, intelligent lighting products, traditional lamps and renewable energy solutions.
